

PATRICK O'DACRE

FULL STACK DEVELOPER

Over 3 years experience in an agile work environment.

I am a strong proponent of clean, maintainable code.

Everything has tradeoffs.

Building great software is a team sport.

SKILLS_

JavaScript:

React, Redux, React Router
Vue, Vue Router, Vuex
Node, Express, Adonis
AngularJS, UI Router

PHP:

Laravel, WordPress

Database:

MySQL, MongoDB

Testing:

Jest and Mocha

Server:

Ubuntu, Nginx

I have extensive experience working with JavaScript and Node. I have also built several applications using Laravel.

I have used Linux/Ubuntu for personal computing and projects for about a year, so I have a working knowledge of the terminal and nginx.

Most of my testing experience is with Mocha and Jest, and I continue to improve in areas of TDD and BDD.

CURRENTLY HACKING ON_

In my free time, I am working on a personal budgeting application called Fudget, as well as a commercial application for self storage business owners. **Each project uses React, Express and MongoDB.**

I also have a successful YouTube channel where I share how I build things with Vue, React and Node.

EXPERIENCE_
